

Training

Closed Circuit Television and Access Control

Overview:

This two-day workshop shall expose candidates to the very latest in advanced design and installation and equipment technology. With the knowledge gained from this course candidates will be able to take a contract from survey to completion and maintenance. They will benefit from the increased demand for these skills in both the public and private sector.

Aim:

To provide candidates with a level of knowledge sufficient to undertake works within the CCTV and Access Control sectors.

Content:

Access Control:

- Site Survey
- Door Entry Systems
- Television Door Entry
- Locks
- Digital key pads
- System Cabling
- Multi-point Access Systems
- PC Control
- Integration of Systems
- Hands on practical work

CCTV:

- Site Survey
- The Data Protection Act
- CCD Cameras
- Lens Technology
- Monitors
- Lighting
- System Cabling
- Switchers
- Multiplexers
- Video Recording
- Digital Recording
- Functional Camera Systems
- Video Motion Detection
- Practical Appreciation of sample equipment

Presenters:

Frank McCann an independent consultant with extensive experience in lecturing and working in the Electrotechnical Industry.

Fees:

SELECT Members - £210 + VAT (£252)

Non Members - £395 + VAT (£474)
